

## COVID-19 Update

The Amador Farmers Market is committed to supporting our local farmers, growers, and vendors during the coronavirus crisis.

Much like a grocery store, our markets play an essential role, helping our community maintain access to healthy, reasonably-priced, delicious foods. Our open-air settings, with local products coming directly from our producers, mean fewer people handle your food and goods.

To help keep everyone safe during this time, and under guidance from the State of California, we're taking additional precautions at the markets:

- We will offer pre-bagged items for easy purchase, and several vendors will have CSA-like pre-packed boxes for grab-and-go options.
- We'll provide extra cleaning supplies and a hand-washing station.
- You'll find extra space between vendors and customer flow control measures.
- We're eliminating food sampling and increasing the frequency of cleaning of tables, payment devices, and other surfaces.
- **If you are sick, please stay home.**
- If you plan to attend the Amador Farmers Market, please wear a mask, practice physical distancing of at least 6' apart, wash your hands with soap and water, use hand sanitizer frequently, and cover your cough.

Once you've completed your purchases, please enjoy them at home.

Good times will come again. Until then, it's our responsibility to keep each other healthy and safe.

Thank you!
